

36" FRENCH DOOR BOTTOM FREEZER

DRF367500AP

Performance

- Preserve food and drinks longer and fresher with Digital Inverter Technology that runs the compressor using only the power it needs which ultimately contributes to lower temperature fluctuation of $\pm 0.9^{\circ}\text{F}$ or $\pm 0.5^{\circ}\text{C}$
- Efficient cooling is achieved through the use of R600a refrigerant which is not only 40% more efficient than the traditional coolant, but also much more environmental friendly
- Food and drinks will last longer within the FreshZone stainless steel storage drawers as it provides optimal temperature control through adjustable settings while also keeping the humidity at the optimal level

Convenience

- Access refrigerator controls with ease using the hidden touch control panel located at the waist height
- Choice of standard crescent shaped ice or slow to melt clear cocktail ice is available to use using the dual ice maker
- Access filtered water through discrete internal water dispenser

Design

- Able to fit into any kitchen design, panel-ready refrigerator is capable of flush installation in 25" depth cutout for a fully integrated look
- Easily view every corner within your refrigerator with 3D ambient light sensor that adjusts the light to your surroundings
- SteelCool™ Stainless Steel interior helps maintain consistent temperature as well as being aesthetically pleasing
