42" FOUR-DOOR FRENCH DOOR REFRIGERATOR DRF425300AP

Performance

- Preserve food and drinks longer and fresher with Digital Inverter Technology that runs the compressor using only the power it needs which ultimately contributes to lower temperature fluctuation of $\pm 0.9^{\circ}\text{F}$ or $\pm 0.5^{\circ}\text{C}$
- Efficient cooling is achieved through the use of R600a refrigerant which is not only 40% more efficient than the traditional coolant, but also much more environmental friendly
- Food stays fresh longer with three evaporators that prevent mixture of moist refrigerator air with the dry freezer air

Convenience

- Food and drinks will last longer within the FreshZone stainless steel storage drawers as it provides optimal temperature control through adjustable settings while also keeping the humidity at the optimal level
- Access refrigerator controls with ease using the hidden touch control panel located at the waist height
- Standard crescent shaped ice is available to use with dual ice maker

Design

- Able to fit into any kitchen design, panel-ready column is capable of flush installation in 25" depth cutout for a fully integrated look
- Easily view every corner within your freezer with 3D lighting without any dark spots
- MetalCool Stainless Steel back helps maintain consistent temperature as well as being aesthetically pleasing
