

## JFX LED Tapelight

### LED Tapelight for Residential & Light Commercial Applications

The Juno® JFX LED Tapelight is the perfect solution for any residential or light commercial applications. Whether you need general ambient lighting or functional task lighting, the JFX Series has you covered. Its compact, flexible design allows it to fit into the smallest of spaces and bend, curve and run the length of any setting. Its adhesive backing allows for it to be installed virtually anywhere, indoors and out. Ideal for residential spaces such as: kitchens, living rooms, and basements, as well as, retail, entertainment, and light commercial settings.

# JFX LED Tapelight

## Features & Benefits

### Lengths

Available in either 16.4ft or 100ft reels, or custom cut from the factory.

### Adhesive Backing

Allows for tapelight to be installed on multiple surfaces: metals, woods and plastics (backside of product).

### IP Rated

To endure all environmental elements, damp location listing or wet location listing variations are available.

### Pixelization Control

Up to 36 LEDs per foot to aid in glare reduction while still processing high uniformity light output within a space.

### Customize

Cut tapelight in increments of 4" with our 200LM version or 2" with our 100LM or 300LM versions to fit the space you need.
